

TAP INTO THE LUCRATIVE MINING INDUSTRY WITH CHIKOKWE & CO.

Overview of the mining industry in Tanzania

For many years, mining has been a lucrative industry in Tanzania. It has attracted and profited a lot of investors.

Prevalent mining includes metals (gold, iron ore, nickel, copper etc.); industrial mineral (diamonds, tanzanite, ruby, limestone, gypsum etc.); fuel minerals (coal, uranium etc.); and many rare earths and critical minerals.

Despite being a profitable industry, critics have argued that, Tanzanian have seen little benefits from the sector.

In hope of ensuring the sector contributes enough benefits to Tanzanians, the government continues to put in place various laws which aim at promoting government interest in mining companies, increase revenue collection, setting local content requirements, etc.

In this vain, Chikokwe & Co. can support you in navigating through various legal requirements and facilitate your business operations, no matter how complex the transaction is.

Consider what our firm will provide.

1 | Strategic advice

Our domestic presence, together with our practical experience and business acumen, enables us to provide advice on complex mining issues.

Commonly we provide opinions on licensing and certification; mining taxation; company structuring; joint ventures and mergers; and also strategic advice on agreements with the government. We develop strategies to successfully complete each transaction for our clients.

2 | Litigation

We combine our deep knowledge of the mining industry with extensive litigation capabilities to represent leading mining companies in all forms of complex mining disputes.

We serve the diverse groups of mining clients operating across the industry including holders of mining licenses such as a special mining license, prospective license, mining dealers and exporters. We work jointly with our clients to develop innovative and effective solutions to achieve extra-ordinary results.

3 | Administrative proceedings

Our nurtured relationship with various government agencies coupled with a deep understanding in the regulatory framework gives us an edge when representing our clients before administrative bodies.

We represent our clients in the mining industry before the mining commission, the minister, and also the tax commissioner, the board and the tribunal.
